PRECISION MACHINE TOOLS

FROM THE **AUTOMETRIC**

MACHINE TOOL CO.

BERKELEY · CALIFORNIA

WE are proud to announce our new plant in Berkeley, California. We now have 24,000 square feet of floor space devoted exclusively to the manufacture of Autometric Jig Boring, Layout, and Inspection machines. The manufacturing division is equipped throughout with the finest modern machine tools. Other facilities include a separate inspection department, a completely equipped heat treating and hardening department, a fully equipped engineering and development division, spacious factory and sales offices.

The occupancy and operation of this modern machine tool factory represent a major step in the progress of our company. This expansion has more than doubled our productive capacity.

We want to thank you, our customers and dealers, for your contribution to the progress of our company. We appreciate your recognition of our products.
